VOL. III. LOS ANGELES, CALIFORNIA, THURSDAY MORNING, MAY 24, 1883. 145.

Day Dispatches.

[By the Western Associated Press.]

FROM SAN FRANCISCO.

What Senator Davis Thinks of California, and Other Matters.

SAN FRANCISCO, May 23.—Suit to recover about $4800 from G. W. McNear, grain merchant, has been brought in the U. S. Circuit Court by Josias Alexander & Son, of London, who claim that a cargo of wheat, sold by defendant, was not of the character and quality represented.

The dead body of Thomas H. Blythe, the millionaire, is being embalmed to preserve it for identification by his daughter, who is expected from England.

Ex-Senator David Davis has written a letter to the Chinese Consul, Col. Bee, extolling California and all he saw in it. He says California was a sealed book to him until he came and saw with his own eyes the wonders of this enchanting land.

A miner named Henry Thomen, a native of Switzerland, died here a few days ago. In an old trunk in his room were found bonds, notes and mortgages amounting to $77,000, and over $5000 in coin.

The State Prison directors have filed a demurrer to the charges brought against them by Attorney-General Marshall, in which they deny the authority of that official to try and determine the case. They aver that the Superior Courts are the proper tribunals to take cognizance of such matters. They flatly deny the truth of the charges, except the borrowing of $34,000 from the Nevada Bank at 7 per cent., which loan was authorized by the Legislature, and the allowing of ten cents per day to the working convict. A similar rule existed under previous administrations and was found an invaluable aid in maintaining discipline.

RAILROAD MEN ON THE MOVE.

SAN FRANCISCO, May 23.—C. F. Crocker, Vice-President of the Southern Pacific Railroad, J. A. Fillmore, General Superintendent of the Central Pacific Railroad, W. G. Curtis, Superintendent of the track, and Arthur Brown, Bridge Builder, left this morning in a special car for New Orleans. They will travel only by daylight and inspect the road, which is now about 2,400 miles in length.

MULEGE MINES.

Fears of Trouble About Locations.

GUAYMAS, Mex., May 22.—Under the laws in regard to placer mines, parties finding them are entitled to a preference in locating. As immense numbers of those going there believe they can locate according to American laws, it is feared trouble will arise.

DESPERATE STRIKERS.

Murderous Assault by Striking Bricklayers on Fellow-Workmen.

CHICAGO, May 23.—An incipient riot, growing out of a strike of bricklayers, occurred on Hubbard street, in this city, yesterday afternoon, which is cited as showing the desperation felt by a certain class of these workmen. About fifty strikers collected about a building in process of erection, and attempted to intimidate the men at work. Bricks were freely used and five or six revolver shots fired. It is now contended that the man using the revolver was John Sullivan, President of the Bricklayers' Union, who, it is claimed, was under the influence of liquor. A young man to whom Sullivan handed the weapon after it had been discharged, has been arrested. The facts were kept quiet for some reason until last night, as it is supposed, to effect other arrests. No one was seriously injured.

GENERAL DISPATCHES.

How an Enterprising Arizona Mail Robber Got Left.

LORDSBURG, N. M., May 22.—A Clifton special says that about 8 o'clock last night a masked robber took in the north-bound stage on the Lordsburg and Clifton route. After securing the mail sacks he ordered the driver to move on. The total registered mail consisted of one letter, and it is not believed that the energetic individual realized sufficient to defray his expenses at the next mining camp.

Chicago's Dog Show.

CHICAGO, May 23.—A dog show, under the regulations of the National American Kennel Club, will be held in this city from June 12th to 15th, inclusive, under the superintendency of the managers of the Centennial and recent New York show. Entries thus far exceed those exhibits yet given in the West, and embrace a number of famous animals from Canada, Ireland and Great Britain.

IN OTHER LANDS.

The Attempted Assassination of the Czar Denied.

ST. PETERSBURG, May 23.—An official messenger denies that an explosion occurred in the dressing room of the Czar before his departure for Moscow. He says, however, that an explosion which was due to the escape of gas, did occur opposite the palace. The persons to be granted amnesty by the Czar on the occasion of his coronation will include civilians exiled to Archangel, and soldiers drafted to disciplinary commands.

Bank Directors Transported.

LIVERPOOL, May 23.—The trial of the great case of fraud in connection with the failure of the savings bank, which has been proceeding here, has resulted in two of the directors of the bank being sentenced to transportation.

The Winner of the Derby.

LONDON, May 23.—The Derby was won by St. Blaise, Highland Chief second, Gallard third.

LIFE IN LOWER CALIFORNIA

The New Placers—Notes on Northern Mexico.

A reporter of the TIMES yesterday met Mr. John Moran, who has just arrived in the city from the new placer diggings in Lower California, attracting such general attention at present and mention of which was made in the TIMES of a few days ago. Mr. Moran has been a resident of Lower California and the northern Mexican States for the past ten years, and says that these new diggings are certainly the richest which have been discovered for a long time. Men who have claims there are easily making from eight to ten dollars per day apiece, and the rush thither is very great. The principal trouble at the new placers, however, is the presence of large numbers Yaqui Indians, who are decidedly hostile to the newcomers, and throw every obstacle in their way possible. They would undoubtedly drive the miners out altogether were it not for fear of the Mexican troops. Mr. Moran thinks that there is almost an unlimited field for successful mining operations both in Lower California and Northern Mexico, and says that it is a pity to see foreign companies gaining almost a complete monopoly of these valuable properties, which by right should be developed by Americans. He reports business very dull at Guaymas, but good at Hermosillo, where there is considerable railroad activity. Good mechanics are in demand and obtain very fair wages, although native laborers can be readily obtained for $12 a month and find themselves. Capital is, however, pouring into Mexico from every quarter of the globe, and radical changes in the condition of affairs in this long-neglected country may soon be expected.

CERTIFICATE

.....OF.....

Water Analysis.

SAN FRANCISCO, September 18, 1882.

For Mr. Victor Beaudry, Los Angeles:

I have carefully analyzed the sample of water —marked as under—and find the following to be the proportions in every 100 parts:

[Mark of sample, Los Angeles.]

Solid residue, 29.16 grains per United States gallon.

Chlorine, 2.39 grains per United States gallon.

Ammonia (free and combined), .085 milligram per litre.

Albuminoid ammonia, .12 milligram per litre.

The first three do not indicate the presence of any injurious ingredients in abnormal quantities, and is a good quality of water for dietetic purposes. It is free from any sewage contamination.

Respectfully submitted,

THOMAS PRICE, M. D.

NOTICE.

To whom I may concern:

I take pleasure to lay before the public the above certificate of analysis of the water from the

BEAUDRY WATER WORKS

knowing, as I do, that good pure water is most essential to the health of the consumer.

And I have just completed the laying of 4200 feet more of 8 and 12-inch cast iron pipe, and in a few days I will commence the laying of 4000 feet more of 8-inch and 12-inch pipe; also, will lay smaller sizes in considerable quantity, as they may be required.

PRIMARY SCHOOLS.

The public school authorities of Philadelphia are wisely turning their attention particularly to the improvement of the lower-grade schools of that city. Thoughtful observation has led to the discovery that "too much attention has been paid to the schools of high grade, which benefit the few, to the neglect of those branches which are the educational dependence of the many." The authorities of that city are displaying an aggregate of wisdom that might be emulated by other localities with profit. Everybody who belongs rightfully to the nineteenth century has discarded the old-time notion that *anything* is good enough for the children. The wise-growing world is getting to recognize the greatness of childhood. Of course it is only the germ of greatness that is held by those of tender years, but that germ wants every possible help to quicken it. Childhood holds more possibilities than manhood, but those possibilities must not be carelessly dealt with or neglected. A building-up process in any direction needs, first of all, a good foundation. There is nothing of value that is not founded upon a firm basis. Neither society, nor morality, politics or religion can be of enduring value unless the underlying base be right. This is no less true of our public school systems. The work of cultivation and proper mental development should be most carefully considered in the primary grades. There is no such thing as building downwards. The child, when he first enters school, is more susceptible than when he is older. His receptive faculties are dominant, his absorbing powers greater. There is no more weighty consideration for us to revolve than the influences and the helps that encircle the children of the community where we live. There should be no careless and inefficient methods adopted for their education. The wisest teachers should be given; the best helps should be theirs, and the pleasantest school-rooms. Everything connected with their school life should be made attractive. The intellect, the eye, the ear, the hand and the heart should come in for their proper share of training. The child should be taught to study with his whole self, and from the beginning his mind should be led out, step by step, as he is able to go, in every direction and towards every point where human interest tends.

Nature is a good text-book for the child, and a wise teacher. An occasional holiday in the woods is a help to the young student. Where is there a spot so well adapted to study the texture of a leaf, the anatomy of a plant, the structure of a blade of grass, and the economy of growth as in the woods, where all the softening and quickening influences of nature are abroad to teach and stir the soul? The children get too much of their knowledge of the natural sciences second-hand. Human teachers cannot be half as eloquent of the beauty of a flower as are its own delicately-tinted and perfumed petals. Nature will reveal herself to the eye, the ear and the understanding of the child more clearly and comprehensively than through the most carefully written books, when the child is brought into frequent and intimate contact with her in company with his instructors. The pupil must be taught how to use his sight before he can see properly. He must be taught how to apply formulated statements before he can gain any real knowledge from them. How many propositions learned at school are actually without any meaning to the majority of little children!

Do not let us forget the children, then. There is nothing worthier the attention of our greatest and most cultivated minds than the wisest and most careful consideration of the best methods of instruction for the children in our primary schools. Let us always do our work well; be honest, thorough, earnest, painstaking, and never blind. Let us look well after the physical, moral and mental well-being of our school children, and if in the advance of educational methods any defects are discovered in any of the different grades, let us be prompt to remedy them. Let our children have, in all respects, the best that we can give them.

EVEN Denis Kearney is capable of learning. Here is a solid chunk of wisdom from the latest speech of the orator of the Sand Lot that was unexpected, to say the least: "It strikes me very forcibly about this time that the people, the unbought and unpurchasable masses, are pretty well convinced that turning the Republicans out and putting the Democrats in did not bring them any relief." You are right, my boy!

THE Boston Herald has this good word to say of Republican rule as tested in some of the States of the great West. The article is its own commentary: "There has never been in this country any honester or better government than in some of the States that have been under Republican control for twenty years. Look at Iowa, with no public debt, with a splendid system of public schools, admirable State institutions, an intelligent, industrious, peaceful, prosperous population. The banner Republican State of the West is also the highest model of a commonwealth in all that pertains to the true glory of a home-ruled community which the western country has yet produced."

SOME time ago there was formed in New York city a society called the "Business Men's Moderation Society." Its chief object is to discourage the pernicious habit of treating. And now the Germans of Cincinnati have formed an organization called the "Teutonic Anti-Treating Society," thus perpetuating the custom of the Fatherland. These are steps in the right direction. It is freely conceded that the custom of reciprocal drinking exerts a most potent influence in creating intemperate habits. When anti-treating societies become more general they will effect wonders in behalf of temperance.

THE several booms in favor of Butler, Cleveland and Pattison, the three tidal-wave governors of the States of Massachusetts, New York and Pennsylvania, seem to have spent their force and there are unmistakable indications of a reaction. The Kansas City Journal says with truth: "That any one of the three will receive the nomination for either the first or second place on the Democratic Presidential ticket in 1884 is extremely doubtful. Certain it is that none of them have made any great progress toward the coveted distinction since they assumed their official duties."

A KANSAS CITY cotemporary reports that the Kaw river water is not in the best condition just now for drinking purposes. In one week 12,000 Dunkards were camped on its banks at Bismarck Grove, engaged in their annual feet-washing! Wherefore, the population on the stream below think they have sufficient Kaws for complaint.

GENERAL JOHN A. LOGAN.

The Sort of Presidential Timber he is—A First-class Notice.

A correspondent of the Boston Herald, writing from Washington, makes the following statement as to the prospects and standing of John A. Logan with his party, as a probable candidate for President:

Whom can the Republican party unite on? That is the question. And the answer is swiftly made that it can not unite on anybody identified with Garfield and Blaine during the past two years. It can not solidly rally around anybody who is a mere stalwart or stalwart idol. There must be found a man who is not identified with the struggle that evolved Guiteau—a man whom Grant men and Blaine men can all approach. Logan is in this position. He stands on his ground distinct from the stalwart opponents of Garfield. That was an affair in which he had no part. He spent the evening with Conkling twelve hours before Conkling resigned his seat in the Senate, but Conkling did not consult him about it because Conkling knew he was on good terms with Garfield. He represents the great State of Illinois. More than all, he was a successful volunteer soldier, and his great speech in the Senate against Fitz John Porter and Grant's support of Fitz John Porter, has brought him into closer sympathy with a vast number of the soldiers of the Union, than any other man. It is strict truth to say that Grant stepped down from his pedestal in the minds and hearts of thousands of veterans of the war when he undertook the advocacy of Porter's cause, and Logan promptly stepped up into the vacant place. That last Fitz-John Porter debate has made a wonderful difference in Logan's popularity throughout the North. I own that it has changed my own feeling about the question, for I had leaned very much in favor of Porter. I cannot help thinking, now, that Logan is substantially right. Porter belonged to the crowd who did not want the Union saved unless it could be saved in their way, and with themselves at the top when the conflict was over. Logan belonged to the set that wanted the Union saved regardless of what man reached the highest place when the result was attained. Pennsylvania and the Northwest can be carried for Logan, and some of the Southern States, I fancy. It is too early to make predictions, but he is surely a possibility. He is candid and he is kind to men and women. His wife is the smartest and most winning woman in public life. They are a strong team. The White House would be as free from private scandal if they were in it as it was in Hayes's time. John has sown his wild oats, and, while he would never have been nominated so long as there was a money question in politics, he is now exceedingly available.

A Common-Sense Remedy.

SALICYLICA

No more Rheumatism, Gout or Neuralgia! Immediate Relief Warranted! Permanent Cure Guaranteed!

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET! The only dissolver of the poisonous uric acid which exists in the blood of rheumatic and gouty patients.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments and sootbing lotions will not eradicate these diseases, which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA acts with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

REMEMBER that SALICYLICA is a certain cure for RHEUMATISM, GOUT and NEURALGIA. The most intense pains are subdued almost instantly.

GIVE IT A TRIAL. Relief guaranteed, or money refunded. Thousands of testimonials sent on application.

READ & FOSTER'S

Carbon BISULPHIDE.

A boy can use it without the least danger.

Prepared especially for killing Squirrels, Gophers, Rats, Ants, Moths, Weevil, Phylloxera, Scale, Lice, &c. Is a liquid, which, when applied, fills the burrow with its vapor and thereby kills every occupant of the hole without injuring anything outside. The animal cannot get away but dies in the hole and never becomes offensive. Comparing it with other poisons we find that strychnine poisoned wheat, Phosphorus &c. are all inferior to the sulphide in being apt to kill the pet dog, sheep, insectivorous bird, &c. The animal may eat them or not as it pleases, and if eating crawls out and creates a stench or poisons the dog, cat or other pet. Read & Foster's Bi-sulphide is safe, cheap and effective, and can be applied by anyone at any time without the least danger. The vapor of this material is heavier than air, and by its pressure reaches quickly every crack, crevice or department in the hole, destroying immediately all animals or insects contained therein.

The Carbon Bisulphide is put up in one and three-pound bottles, and six, twelve and fifty-pound cans. Each bottle or can is accompanied by complete directions, and is ready for field work. Manufactured and prepared by READ & FOSTER, Los Angeles Chemical Works. All orders and communications to be sent to Read & Foster, at factory, or P. O. Box 1962, Los Angeles city.

H. READ, C. T. FOSTER.

PRICE LIST OF READ & FOSTER'S CARBON BISULPHIDE:

One-pound bottle per dozen, $4.00; Six-pound cans each $1.50; Twelve-pound cans each $2.50; Fifty-pound cans each $8.50.

The Trade supplied at San Francisco prices.

A reduction in these prices will be made for orders exceeding one hundred pounds. apr29-1md&w

San Francisco Produce Market.

Revised Daily for the Times.

SAN FRANCISCO, May 21.

FLOUR—Business continues active. We quote: Best city extra, $5 65@6 05; medium grades, $4 50@5 25; shipping superfine, $4@4 25 ₰ bbl.

WHEAT—The spot movement is sluggish at unchanged rates. The only important sale today was a lot of 50 tons choice milling at $1 82½. Shipping grades still range from $1 77½ to $1 80 ₰ cal for No. 1 quality.

BARLEY—The week has opened badly. Nobody seemed inclined to give the situation any support and the market fell solely by its own weight. Seller 1883 could be touched as low as 98½c ₰ ctl. Just a month ago the market for this particular season was firmly backed at $1 12½@$1 13¾ ₰ ctl. Now believed that no marked a decline would occur within this period. On the 21st of April purchasers of May contracts had to pay $1 25¾@$1 26. Today the ruling price was $1 04¾. Spot lots of No. 1 Feed are selling by sample at a range of $1 05@$1 10. Brewing can hardly be placed at over $1 15 for No. 1, though some parties are holding for more.

CORN—Prices are fairly sustained. California Yellow is quotable at $1 65@1 70; Nebraska, $1 57½ ₰ ctl.

HAY—We quote: Alfalfa, $10@14; Wheat, $16@18; Wild Oat, $16@18; Mixed, $10@13 ₰ ton.

POTATOES—Receipts fairly free, and prices somewhat easy. Quotable at $1@1 25 ₰ ctl.

BEANS—We quote: Bayos, $5; Butter, $3 25@3 50 as to size; Limas, $3 80; Pea, $3 50; Pink, $4 75@4 80; Red, $4 60@4 70; Small White, $3 50 ₰ ctl.

FRUIT—The warm weather will doubtless occasion more liberal supplies. We quote jobbing lots as follows: Apricots, 20c ₰ lb; Raspberries, 40c ₰ basket; Strawberries, $10@15 ₰ chest; Cherries, 5@8c ₰ lb for poor and 10@25c ₰ lb for good to choice; Lemons, $6@8 50 ₰ box for Sicily; California Lemons, $1 25@2 ₰ box; Limes, $5@6 ₰ box for Mexican; Tamarinds, 12@13c ₰ lb; Bananas, $1 (a)3 ₰ bunch; California Oranges, $1@1 50 for common and $2@3 ₰ box for good to choice; Pineapples, $5@6 ₰ dozen; Tahiti Oranges, $15 ₰ box.

BUTTER—The selling interest is largely at a disadvantage. We quote prices as follows: Fancy, 25c ₰ lb; choice, 24@24c; fair to good, 17@22c; inferior lots from country stores, 15@17c; choice firkin, old, 20@22½c; do new, 22@25c; ordinary do, 17@19c; pickled roll, old, 20@22½c; new, 24@26c; Eastern, 17@20c ₰ lb.

EGGS—The market moved in a little to-day and buyers had to give a small advance on last week's closing rates. Quotable at 23½@25c ₰ dozen.

POULTRY—Dealers are disposed to make concessions sooner than keep consignments for any time. We quote prices: Live Turkeys, gobblers, 16@17c; do Hens, 16c; Roosters, $5 50@6 50 for old and 40@$1 for young; Hens, $6 50@7 50; Broilers, $3 50@4 for small and $5@7 for large; Ducks, $6@8 for old and $7@9 dozen for young; Geese, $1@1 50 ₰ pair, and Goslings, $1 50@2 per pair.

WOOL—The week does not open with any pronounced inquiry. We quote:

Choice Northern Free	22@24c.
Choice Northern Burry	15@19c.
Calaveras and middle counties	20@23c.
San Joaquin and Coast, choice	16@18c.
San Joaquin and Coast, inferior	14@15c.
San Joaquin and Coast, year's clip	14@18c.

MEATS—Following are rates for whole carcasses from slaughterers to dealers: Beef—Prime, 6¾@6¾c; medium grades, 7¼@8c; inferior, 5½@6½ ₰ lb. Veal—Large Calves, 7@8c; small ones, 8@10c ₰ lb. Mutton—Wethers are quotable at 4¾@5c, and Ewes at 4@4½c ₰ lb, according to quality. Lamb—Spring is quotable at 6@6½c ₰ lb. Pork—Live Hogs, 6@6½c for hard, and 7@7½c for soft; dressed do, 10¼@11c ₰ lb for hard grain Hogs.

I claim not to cure everybody, but to cure all that can be cured. I am formerly from New York city, and a graduate of one of the best medical colleges in the United States, and a most thorough Electrician, and have had many years successful practice in the treatment of both acute and chronic diseases. To remove all doubts and convince my patients that I claim nothing but what I am, I refer to my diplomas and the numerous recommendations in my possession, which will always be ready for inspection at my office. I HAVE NO ONE SURE ALL nor do I make a hobby of any one mode of treatment. I use electricity or medicines or both, as cases may require. I find the cause of disease, remove it, and nature, assisted by medicinal remedies, supplies, will prompt a cure without fail. TO THE LADIES. ELECTRICITY AND MAGNETISM.—The new means of cure. Dr. E. Robbins, the successful Electric and Magnetic Healer, of 119 Main street, between Second and Third streets, who has made so many wonderful cures in this city, is still meeting with immense success. His rooms are crowded daily with patients anxious to get the benefit of his powerful magnetism. The blind see, the deaf hear, the lame walk and the sick are healed by this new development in science. Dr. Robbins discards the use of all medicines in his treatment and relies solely on the power of magnetism. An experience of several years in the American exchange and this powerful enables him to assert with confidence that he can cure diseases that baffle the skill of other physicians. He also diagnoses diseases without explanation from the patient free of charge. He would advise all persons suffering from painful diseases to call and see him and get the benefit of his advice. Testimonials have already appeared in these columns owing to the ability as a magnetic physician. my13-3m

The Cannon Case.

The Cannon case went off yesterday afternoon in the Police Court with a concussion and a fine of $50. A man named John Cannon had attempted to forcibly eject a Mrs. Brown from a house she rented of him. In doing so he pushed her off the back steps, and she falls identically to the ground. Being in a delicate condition, the offense was doubly aggravating. A jury on Tuesday had failed to convict the defendant, but yesterday a new jury at a second trial brought in a verdict of guilty. Judge Morgan said in imposing the fine, that if it had not been for Cannon's ignorance he would have made the fine $150, Cannon paid $50, the amount of the fine, and went away convinced that by force is a poor way to eject bad tenants.

A Criminal Assault.

Late yesterday afternoon Clarence McGee was arrested by officer McMahon on a charge of disturbing the peace. The complaint was issued on an affidavit sworn to by Joseph Fisher. The circumstances were that McGee was caught in the act of criminally assaulting a little girl. McGee is about seventeen years old and the girl is about twelve years of age. He will be arraigned before Justice Morgan this Morning at 9 o'clock. He is an old offender, having just been discharged from the county jail yesterday morning. He has been up several times before; once for stealing a bottle of champagne from a saloon on Aliso street. McGee has relatives living in this city and a mother in San Francisco.

The Frankel Fire.

On the 13th of last March the store of Frankel Brothers was burned at Wilmington. Yesterday George W. Reinbach, Frank Ames, William Frankel, James W. Hellman, and Joseph McGann were arraigned before Justice Ling on the sworn complaint of Deputy Sheriff George E. Gard, charging them with arson. J. W. Hellman and William Frankel each gave $2,000 bail. The examination was set for Saturday at 10 A. M.

THE FIRE GOD

Attempts to Devour the Supreme Court Block.

A Fire Breaks Out this Morning at One o'clock—Court Rooms destroyed—Cause Unknown.

About ten minutes to 1 o'clock, Officer Roley, whose beat is on Main street, discovered an unusually brilliant light in the Supreme Court block, on the southeast corner of Main and Commercial streets. It was also discovered by some of the members of the Hamilton Australian Minstrel Company who were standing on the sidewalk on Downey block opposite. General Roley at once went up into the building and awoke John T. Gaffney, the Deputy Supreme Court Clerk, who at once went to work saving the records and books.

An alarm of fire was at once given, and the fire department were promptly on hand, but slow getting on water. The fire had fifteen minutes the start of the Times reporter as, armed with a quire of paper and a box of lead pencils, he hied away to the fields of carnage to count up the wounded and help cart off the slain. After a most diligent search through the courts, Sheriff and police offices, the reporter failed to "catch on" to any news of the dreadful slaughter. Finally Mr. Thomas Stovell, of the planing mill on Spring street, was found, and told a story as follows: About 11 A. M. yesterday, while he was at work in the mill, a lot of school girls ran in and said that the teacher was whipping his daughter. Without thought he rushed into the school-room and slapped the teacher twice in the face. Matters were then explained that his daughter was not hurt at all. Stovell then apologized to the teacher for his hasty conduct and retired.

After hearing Mr. Stovell's story the reporter met Mr. J. M. Guinn, City Superintendent of public schools, who explained matters as follows: A gentleman named Farden had been engaged to fill a vacancy which occurred by the marriage of Miss Lula Entwisle to Mr. J. W. Hinton. A boy, named Phelan, who had been suspended for misbehavior before, and who was again on the verge of suspension, undertook, with some evil minded colleagues to do as they pleased. They ran against a snag in Mr. Farden. Matters grew so bad that he was obliged to whip Phelan, but in so doing did not injure the boy. A second whipping became necessary, and in trying to lift Phelan out of his seat Farden lost his grip on the boy who fell to the floor. This is all there was to the affair. Some of the girls grew hysterical and were kept in during recess, and hence the Stovell episode. Phelan confessed his disobedience to Superintendent Guinn. The authorities consider Mr. Farden in the right and will sustain him in maintaining discipline. Mr. Farden is a graduate of the Michigan Normal school and a teacher of several years experience.

The Ostriches Described.

"Santiago," writes to the Times: "To those who have not seen the ostriches, a very brief description may be of interest. Just imagine the body of a young mocking bird about the time its feathers are starting. Color it black or gray, magnify it about a thousand times, and you have the body. To this add huge scaly legs three or four feet long, and a naked, doubled and twisted neck three feet long, and you have the animal-bird complete. He is independent, awkward and ugly. Some of the tales of his kicking lay the time-honored mule completely in the shade. He can give the mule half, and then outkick him. We didn't test their kicking qualities, because we had our Sunday clothes on, and didn't want them soiled."

A New Peddling Dodge.

Another of the "dark ways" of the "heathen Chinee" was brought to light before Justice Morgan yesterday. Officer McMahon caught a Chinaman peddling without a license. The wily pagan had clothes, shirts, and underwear for sale. He had them very cunningly done up in the shape of a wash-bundle. When arraigned he said he was a cook, and did not understand washing. An interpreter was called, and he was given to understand the Judge saw through the big hole of his commercial grindstone, and that he must take out a peddler's license or go to jail. He took a license.

Memorial Day.

A modified order relating to exercises on Memorial Day, issued by the Commander of Frank Bartlett Post, G. A. R., of this city contains the following paragraphs:

All civil, military and patriotic organizations and societies, and all citizens in sympathy with the occasion are cordially invited to join with the Grand Army in this public and grateful service.

All organizations proposing to parade will please inform the Adjutant on or before Monday, 28th instant, in order to designate their places in the line.

The Minstrels.

Another good house greeted the Hamilton Australian Minstrels last night. The acting was better than the previous evening, the players having recovered from the fatigue of their railroad trip from Bakersfield, and were more accustomed to the hall. As a specialty to-night Mr. Wm. Hamilton and Mr. Harry Earl will sing a duet from "Il Trovatore." There will be an entire change of programme this evening. This company are playing for merit, and deserve patronage.

Holy Matrimony.

County Superintendent of Public Schools J. W. Hinton was yesterday married to Miss Lulu Entwistle, a teacher in the public schools of this city. The marriage ceremony was performed at the residence of the bride's parents in Vernon district, Rev. P. W. Dorsey performing the ceremony. The wedded people took the afternoon train to San Diego.

Local Markets.

The price of eggs fell two cents yesterday, and a further decline is expected. Barley has been steadily declining, and prices as yet are anything but firm. Feed barley is lower now than it has been at any time during the past two years. Hay is steady, but a further decline is expected shortly.

More Excursions.

Another Phillips excursion left Boston May 16th for Los Angeles, which will arrive here on the 27th inst. Mr. Phillips will return to Los Angeles in June and take a party East in August. Still another excursion party to the East, to leave here some time in July, is to be organized by Mr. R. M. Baker.

The ladies of the Woman's Christian Association return thanks to the Messrs. Day & Brown for the use of the piano which they so kindly loaned them for last evening's entertainment.

ALL ALONG THE LINE.

Progress in the Territories—The Indian War—Confidence in Crook.

Mr. R. H. Hewitt, postal agent between San Francisco and Deming, N. M., in formed a representative of the Times yesterday that the grain crops along the line of the Southern Pacific in California look very well with but few exceptions. The two liveliest towns on the line of the railroad in the Territories are Deming and Lordsburg, in both of which improvements are being made rapidly. A railroad is now constructed and trains regularly running between Deming and Silver City, and the mining interests of the territory never looked more promising. The Indian troubles do not to any considerable extent affect the prosperity of the country, except so far as they retard immigration and keep capital from coming in. Although the hostiles have not committed any outrages during the present outbreak on American soil, to the mind of the average Eastern man and even to some extent in California, Arizona and New Mexico are supposed to be swarming with bloodthirsty Apaches and the inhabitants constantly in danger of losing their scalps. As a matter of fact, there is no present or prospective danger in either Territory, and Mr. Hewitt says the people near the seat of the war, both Mexican and American, have complete confidence in General Crook's sagacity and ability to bring to a successful close the campaign now in progress.

John Docherty.

This famous individual was arraigned before Justice Ling yesterday, and examined on a charge of forgery. D. M. Adams, Esq., appeared for the prosecution, and Hon. W. A. Cheney for the defense. Deputy Sheriff Huber testified at length as to Docherty's capture, and the latter's attempt to swallow some forged checks. Argument for Friday at 10 A. M. Docherty appeared to be cool during the examination, but at times a little nervousness could be detected as the opposing counsel would bring out some strong point against his case.
